# YourSix

Construction

From protecting assets to preventing vandalism, we've got your back.

From materials and equipment to workers and client visits, your construction job site has a lot of moving pieces that need to be protected. Even when the site is empty in the dead of night, you still need around-the-clock monitoring to prevent costly delays and missing assets. You need a security solution that's the right tool for the job.

The YourSixOS pure cloud solution provides the support your construction team needs to ensure safety and security without slowing down the true job at hand. Our simple, scalable, secure, and redundant visual intelligence platform equips you with remote monitoring from anywhere, convenient access control, and robust analytics.

Protecting investments long term with **open technology**

Eradicating downtime with **redundant architecture**

Powering simplicity with a **single pane of glass**

Growing to your needs with **unlimited scalability**

Ensuring up-to-date protection with proactive **health monitoring**

Guarding data with **modern cybersecurity protocols**

Prioritizing Safety Through Open Technology

Traditional servers and NVRs simply aren't built for the tough environment of your job site. You need a reliable and effective solution designed for whatever conditions you're facing, day in and day out.

- Deploy continuous monitoring to protect high-value assets
- Store security footage safely in the cloud for remote access from anywhere
- Customize protection to suit your specific job site with Y6OS
- Review multiple job sites remotely from a single dashboard
- Equip leadership to check on their projects anytime, from anywhere
- Eliminate servers and costly infrastructure setup
- Lower injury incident rates using sound and video triggered alerts
- Provide post-incident analysis and review
- Designate authorized staff access to critical areas

Securely manage all devices from a single pane of glass

Leverage AI analytics to trigger smart speakers

Verify identities with intelligent triggers to secure all entrances & exits

Monitor & secure areas where visual intelligence is unavailable

Utilize AI analytics to see more, know more, and be better equipped to respond

Y6OS enables Professional Monitoring to ensure peace of mind
