

## ENERGY & UTILITIES SOLUTIONS

# From generation to grid we've got your back.

It takes more than poles, wires, and pipes to keep communities powered and protected. From power plants and substations to water treatment facilities, energy and utility providers face risks that demand more than compliance — they require always-on visibility, proactive intelligence, and resilience across the entire lifecycle of critical infrastructure.

The YourSixOS direct-to-cloud platform delivers a simple, scalable, and secure way to safeguard essential services. By unifying video surveillance, sensors, access control, audio, and AI analytics in a single pane of glass, YourSixOS helps you detect risks faster, respond smarter, and eliminate downtime. With no single point of failure and infinite scalability, YourSixOS adapts to your operations — whether you're protecting one facility or an entire regional grid.

Protecting investments long term with open technology

Eradicating downtime with redundant architecture

Powering simplicity with a single pane of glass

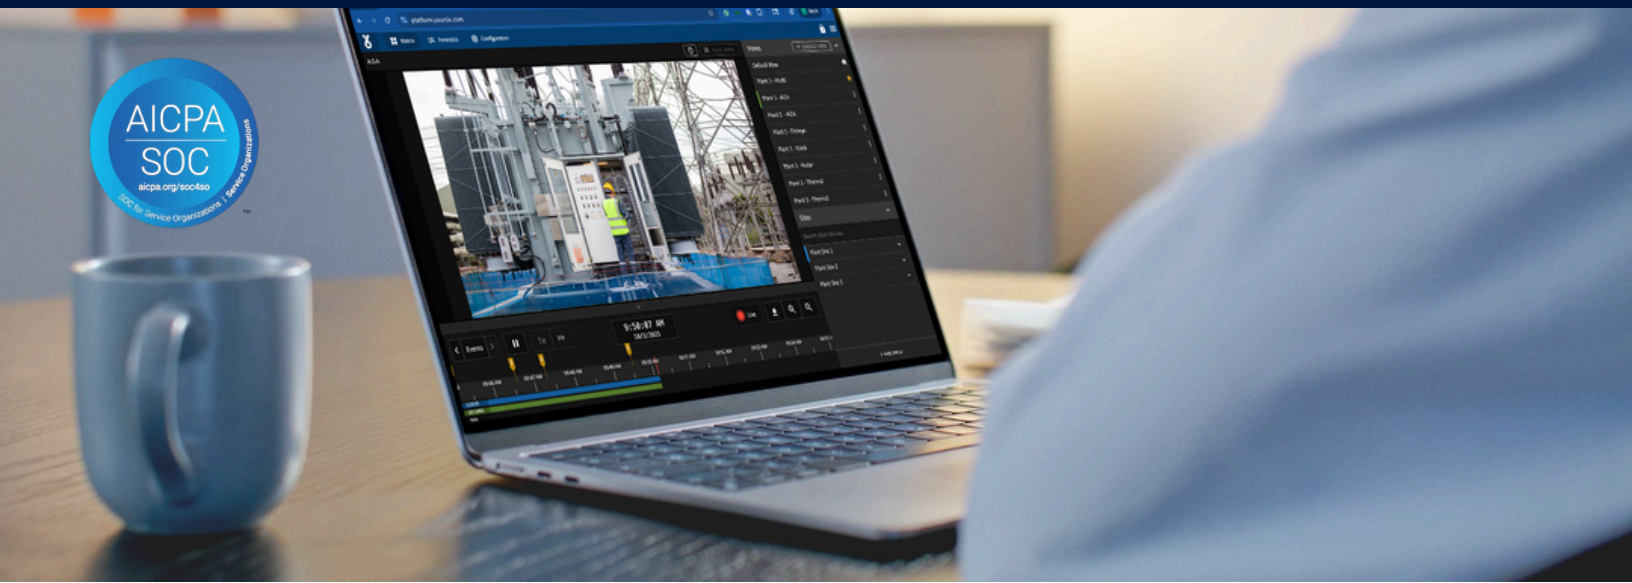

Growing to your needs with unlimited scalability

Ensuring up-to-date protection with proactive health monitoring

Guarding data with modern cybersecurity protocols

## Keep Essential Services Secure

Energy and utility operations can't afford disruption. Our direct-to-cloud platform integrates video surveillance, sensors, audio, and AI into one pane of glass—so you can detect risks faster, respond smarter, and keep your people and assets safe. With infinite scalability and no single point of failure, YourSixOS adapts instantly to shifting demands, whether you're securing one facility or an entire regional grid.

- **Always-On Resilience** - Cloud-native redundancy ensures uptime even when local infrastructure is at risk.
- **Centralized Visibility** - Monitor every plant, substation, or remote site from a single secure platform.
- **Lower Total Cost of Ownership** - Eliminate on-site servers, maintenance, and surprise upgrade expenses.
- **Smarter Intelligence** - AI-driven analytics reduce false alarms and sharpen real-time situational awareness.
- **Scalable & Future-Proof** - Add new devices, users, or entire facilities in minutes—not months.
